Subject: Strategic group messaging company acquisition with patents (Wrinkl, Inc.)

Hi Julien,

Do you have room on your Workplace team for a group of six people who created the 2018 Appy award winning Group Messaging app that PC Mag (Mar 5, 2018) rated equal to Workplace? To date, we've raised \$4 million and have been issued five US patents (more pending). We believe all of our IP is foundational but you may be particularly interested in our IP related to integrating email into group messaging. We love what we're doing but we're in an incredibly competitive space. We think it's time to reach out to to see if there would be any interest on your part to acquire or invest in us. We're a team of hard working, group messaging loving folks with lots more ideas on how to make group messaging special - especially for business

users.

Please see the attached link (video overview of some of our key innovations)... <https://www.youtube.com/playlist?list=PLiT3KyicaH-thJUfl1RGmvz2a00IEyC2c> I hope to hear from you and to schedule a meeting. I'll be in Dublin Oct 17 through Oct 21. I know you're in London and would be happy to come visit you (or anyone else you think appropriate) while I'm over there.

Best regards,

Marc Cohen
